Product Information

No-Clean Flux Remover - VeriClean is a moderately aggressive circuit cleaning fluid. Formulated with methylsiloxane (VMS) fluids, it dries quickly and residue-free. It is an effective flux remover as well as degreaser and general purpose cleaner.

This versatile cleaner quickly removes fluxes, pastes, organic residues, polar soils, silicone-based uncured conformal coatings, adhesives, greases and oils. It is ideal for cleaning thru-hole, BGA and SMT design circuit boards, and for rinsing residues from connectors. It is safe on all components. This formula has a low Global Warming Potential (GWP) and is exempt from VOC regulations in most areas. It is an ideal option for use on modern production lines.
